SOFTWARE DEVELOPER (F/M/X)

📍 Vienna or Bacelona   📅 2021/2022   💼 Fulltime

Our Customer Success Team is looking for a Software Developer (f/m/x) who has a strong drive for quality of his/her work and is eager to learn. The successful candidate will work on optimising our project delivery workflows. In addition to that you will help to create, maintain, and extend our customer applications.

Your Tasks

- Develop and improve our data pipeline
- Onboard new customers to our Partium system
- Support building product features based on customer needs
- Maintain and extend existing customer applications

Your Profile

- A successful completed technical education (HTL, FH, Uni)
- First experience in software development
- Experience in Python and/or JavaScript/Typescript
- Experience with Databases – preferably Postgres or MongoDB
- Good communication skills in English
- Eager to learn new technologies and hands-on mentality

Our Offer

- The opportunity to work on exciting AI-related projects and products
- A career path to develop your skills and expertise
- An international team with a wide range of expertise
- Flexible working hours and home office
- The stability of a company with 20 years of experience
- Team activities, free snacks and drinks

About us

Partium offers an AI-driven mobile and stationary parts search & identification solutions within industrial and retail environments. The company was formed by three of the world's leading providers of image recognition and visual search technology: U.S. based Slyce, Spain-based Catchoom and Austria-based Humai.

Salary

We offer market conform salaries considering your qualification and your work experience as well as the responsibilities associated to your role.

How to apply

Please send your application including a letter of motivation and your CV to **jobs@partium.io**
